Re: Mosport 2011

Happy New Year to all of our members and supporters !

It's been a long time coming, it's taken lots of effort from SRA and Vintage Road Racing Association members but we will be racing our modern Sidecars at Mosport with the VRRRA this coming August 12/13/14.

It's a classic track steeped in history and one that will suit the long F1 bikes within our club but I do know that the smaller F2 racers will try and give the bigger bikes a run for their money.

This will be an opportunity to see the modern & vintage sidecars in separate races on a fantastic track. Both classes should be a spectacle to see.

I think that this signals the start of an era whereby all sidecar racers (modern & vintage) can work together to grow our sport. We are a small but extremely passionate group with the same cares & concerns.

Together we can expose sidecar racing to a larger audience.

Here are the respective websites for our 2 organisations:-

Sidecar Racers Association (modern Sidecars) – www.sidecarracers.com
VRRRA (vintage Sidecars) – <http://www.vrra.ca>
